The Reason for this report...

I have been very successful on the internet, right from my days doing Google adwords in year 2002 till present; I have built a massive internet virtual estate that consistently pulls in cash for me on a daily basis. I remembered doing paid surveys in my early days and cranking an average of \$200 weekly. I was averaging as much as that after I have acquired over 40 ebooks on paid surveys alone (yes I mean it) and paid over \$800 for useless information that does not pay me in any way.

After reading and signing up with many of this paid survey sites, I then discover that I have to pay membership fees. On few occasions, I did pay the sum of \$60 each to some paid surveys companies (about three of them) and got a list of other paid survey companies and I was been merry go rounded. I am quite sure you'd have encountered this on few occasion and I can say again & again that it's as annoying as hearing screams all over your head.

It sure can make an individual sick and tired of even making money online. After few attempts of signing up with some paid survey companies, I discovered that my Nigerian IP address has been blacklisted.

Take for instance, I browse with Starcomms & sometimes multilinks and discovered that I am not allowed to sign up as a Nigerian. In fact, I don't get paid each time am being allowed to sign up as a Nigerian. I am also sure that you would have encountered this as well. For others, after signing up and making considerable amount of money, we find it hard to cash/ receive our payment.

I am with no doubt that paypal has been a very annoying method of collecting our earnings considering that they don't accept Nigerians PERIOD! For the rest of us, we just don't know where to start; we only hear about this programme and don't know how to start.

However, this report will definitely give you insights into how to solve the problems highlighted above. You'll find out how to sign up with no membership fees whatsoever, how to complete each surveys even if you are from Nigeria and using Nigerian IP, and then cash your earnings right here in Nigeria.

This report satisfies only one aim and only one aim alone. This is to show you how to **MAKE MONEY WITH PAID SURVEYS AND CASH YOUR EARNINGS** right here in Nigeria. This report will show you exactly how to do so without paying membership fees,

I am not one of the many internet marketers that basically rant over and over again and hype reports. I hate seeing you read endless ebooks as well. Therefore, I am going to get straight down to this in a step by step without being verbose. This is a no frills way of making money. If you are an individual who wants to start a paid survey business online without any start up capital and end up raking as much as \$450 If you are really serious about making money online with paid surveys, then get your hats on as I am going to show you something that will amaze you.

By reading this manual, I am assuming that you know how to use a computer + Internet connection and can do basic browsing like checking emails, signing up for offers & visiting websites. If you don't know how to do any of these, then you won't be reading this ebook or should I say, you shouldn't be reading this report.

Instant Paid Surveys: The methods that can crank \$450 into your account on a daily basis overtime...

The major reason why you have not made money online is probably because you are not able to sell. Think of it, virtually every programme on the internet requires you to be able to sell one thing or the other. This includes Internet marketing, affiliate marketing, Google adsense and Adwords, Facebook marketing, Blogging and even the age old domain profiteering campaigns.

These are very good models of making money online and there is no doubt that they are very very effective and unique. I mean, even in real life, we all have to sell something. Think about your job, your conventional business and even the roadside mechanic who repairs your car or rather the corner shop that sells every daily needs in your home.

While looking for a job, we did have to sell ourselves as capable to our employers before being employed and also sell our time in exchange for salaries when we eventually get employed.

However, there is a new and simple way of making money online. This is called paid surveys and it can be done by virtually anybody as long as you have a PC + Internet and you can browse the internet. That is the only prerequisite. In fact, you don't even have to know jack about doing business online to make money with paid survey business. Paid survey business is all about:

Paid Surveys: The introduction

There are thousands of companies that will pay you for sharing your opinion. These companies' ranges from Macdonalds, Nike, Homechoice, Microsoft, Amazon, Staples, Asda, 1and1, Vintage, Comcast, and Verizon wireless etc. Most company's new product is based on consumer research that proved to them that when such products hit the shelves, it will be accepted by consumers. Companies cannot afford to introduce products or services that nobody will buy; therefore, it is more cost effective to pay consumers to fill out surveys before they introduce a new product or service.

These companies will pay between \$0.50 to as much as \$60 per surveys completed and done. Simply put you get paid each time you complete a survey that relates with your specified profile and the amount is credited to you. These companies can afford to pay you that much because its more cost effective to pay you a small amount of money to know your opinion than put a product on the market based on guesswork! These surveys will be completed by millions of people online like you all over the world and these companies analyse consumer preferences by analysing the surveys that each individuals have completed. Take for instance, if two million individuals fill out surveys on a new sport shoe to be designed by Nike. If 1.5 Million think that the shoes will be too expensive for purchase, then Nike would probably find out a more affordable design or scrap the creation of such sport shoes for the market.

In a way, this saves Nike millions of dollars in advertising, product design, distribution, product mass production, trade marking etc.

Which means in actual sense, you make money while helping companies to determine the type of products to introduce into the market. Imagine how much that could be made from this.

1. Take online surveys - get paid from \$5 to \$60 for each survey
2. Take telephone surveys & get paid up to \$50 - \$90 per hour
3. Participate in focus groups -get paid up to \$125 per hour
4. Try New products for free - \$10 to \$15 (you get to keep the products)
5. Get Paid \$40 to shop and eat as well.

Paid Survey Networks

Companies like Nike, Comcast, woolsworth, asda and the rest would rarely have a consumer opinion department. This is because it takes a lot to pay staffs, run survey department all year round and they'd rather contract it out to other small companies to get such surveys run for them. These companies are called Paid survey networks. They simply are the middlemen between the big companies who want to research on consumer sentiments and the individual consumers. The Paid survey networks facilitate surveys and deliver result to the big companies online. This is because you cannot directly apply for surveys to the big companies.

While signing up online, I am sure you would have encountered some of these networks asking you to sign up with membership fees ranging from \$20 - \$120 before you start getting paid. Well, personally I think this is totally unfair. Why would I have to pay to complete surveys when they'll end up being the one paying me too?

However, there is nothing to worry about. The aim of this report is to give you insight on how to sign up without paying membership fees, Yes, I mean Totally FOR FREE! So here we go:

Take for instance, the site www.ciao-surveys.co.uk . They are one of the paid survey networks that do not charge you a dime for signing up with them. Yes No Membership Fees whatsoever

Don't sign up yet, I am going to show you how to in a little while.

Ciao survey is a UK company that has undergone a lot of metamorphosis. Recently they changed from ciao.com to www.ciao-surveys.co.uk and they've been proven to pay individuals who complete surveys with them. However, they don't allow Nigerians to sign up (paid surveys are not directly created for Nigerians anyway) however, there are ways to make money with paid surveys stress free and I am going to show you how in the next section. There are over 60 survey websites that allow you to sign up totally for free without paying a dime and that is available in the Instant Paid surveys Massive Manual. I mean

look at this, it's completely free to sign up with ciao and you can start making money online right away.

How to start Your Own Paid Survey Business

This should be racing your mind now. Like I said earlier on, this is the simplest method of making money and I personally think the question on how you can start your own Paid survey business would be a paramount question sentence.

I'll quickly lay down the step by step guide so you can take action;

1. Switch on your IP changing software. This is very very important. There is no way you'll be able to set up a successful survey business without the use of an IP changer. 90% of surveys are tailored to US & Europe & Canadian residents. For you to participate, you'll need to mask your IP address to look like one. www.hidemyip.com is offering a 14 day trial for everyone that uses their IP changing software. Simply sign up with them. You can re-install each time it expires or alternatively, you can decide to pay for annual subscription. Figures are available on their website.
2. Sign up with as many Paid Survey Networks as possible: Ensure that these companies allow you to sign up for free without paying membership fees whatsoever. I have given you an example above, this is www.ciao-surveys.co.uk and you can sign up with them without paying a dime. This site will get you at least one survey on a daily basis. If you need a foreign address, simply login to www.graphcard.com and visit their contact section. Copy & use their address. This should just be fine since you are only using their address & telephone number for registration only

REGISTRATION IS FREE

You can earn \$1 - \$10 for each survey taken. The juicy bit of it all is when you sign up with as many paid survey companies as possible. If you sign up with about 20 networks and you get a \$5 survey from each individual networks, it simply means that you will earn \$100 per day. That is about

\$700 every week & \$2,800 every month. This is very possible if you dedicate your time doing paid surveys online using my methods.

Like I said earlier on, www.ciao-surveys.co.uk is a tip of the iceberg. I have prepared a manual that entirely details the over 60 companies that allows you to sign up for free and you can earn as much as you like. This manual is available and discussed in the last chapter of this report, simply read on to understand some other few things.

3. Fill out your profile and consummation sentiments. Your profile determines the type of surveys you'll take. Your age, the responsibility you take in your family, your niche as well.
4. Complete surveys sent to your email address. When you sign up and complete your profile, you then wait for surveys to be sent to you. When you receive a survey you click the link of the survey to complete it. Each survey timeframe depends on the survey you are doing. In most cases they are between 10-30 mins survey. Remember, the longer the time required, the more money the survey is worth as well
5. Check your account balance. Each time surveys are taken, the survey networks credit your account as soon as your survey entry is approved. You simply login to your survey network to know how much you've

Imagine completing over 100 surveys weekly, this will pull massive cash into your pockets that you won't even need to rely on your paid job again.

How to get paid

The single sole method of collecting payment with most survey websites is through paypal. Paypal is very very strict with their payment method. I am going to share a story with you before the end of this section that suggests that. Anyway, back to paypal. Paypal is an online method of collecting payment online without giving out your credit card or bank account details. Paypal has over 100 million users spread across the world. However, the Bad News is that Paypal Hates Nigerians. Yes paypal hate us with a lot of passion. They simply will not allow us to sign up as a Nigerian; neither will they allow us to access paypal account through a Nigerian IP. There has been various methods used in the past for signing up with paypal as a Nigerian, take for instance:

- a. Etrade.com: While this method used to work, it has since stopped. In actual sense what you are able to open is a brokerage account that works pretty the same way as a checking account. When you sign up and your account is approved, you can then use it to verify your paypal account
- b. Virtual Money inc – Spring Bank: Spring Bank (listed on the Nigerian Stock Exchange) was a reseller for virtual money inc which provides an individual with a card that comes unique with a US bank account. However, for some reason best known to spring bank, they've stopped this method, and it makes it difficult to open a US bank account & Verify Paypal Account.

My Story: I did promise sharing a personal story with you and here it is; when I first started my “Work From Home” program, a program that allows you to sign up for jobs online through websites like www.odesk.com. (Visit www.howtoopenausabankaccount.com for more info on this),

I rolled out a payment system I called Unified Paypal account. A unified paypal account is simply my own paypal account that I used in my various online business which I grant individuals who subscribed to work from home access to use for their own programmes. This simply meant that everyone that

subscribed to my Work From Home Program were able to collect their payment through me.

Before now, I had over 30 people using my unified paypal account for collecting salaries online through the work from home programme. However, I was forced to close down this means of payment because of a recent issue.

An individual called to confirm that he was expecting \$1000 for writing hundreds of articles. The money came through to my paypal account and he further requested that the money be transferred through to someone else he needed to pay for other stuffs. Few days later, I got a letter from paypal stating that the amount was illegally transferred from someones account to mine without authorisation.

Since I did not have any funds in my account then, paypal debited my paypal account the sum of \$1000 which means that my paypal account was in debit. This casued a lot of problems since the money has been transferred again anyway. This was an actual case of fraud meted on me and it did tell on me big time & affected a lot of things. This shows you how far some unscrupulous Nigerians can go to defraud in other to get money. Anyway, that was an issue which has an ongoing investigation, however I have since taken a defensive measure of scrapping the use of my paypal account and I know you'll agree with me that my measures were justified. I have learnt my lessons though. The Unified paypal system has been shut donw by Me for good!!!

Introducing USPAYPAL CODE

I have since decided to show you exactly how I opened my paypal account. I guess this will sort a lot of problems and take individuals off my back who would prefer to scam/fraud instead of doing legitimate businesses online. This method has been in existence for over two years (I mean I have signed up for this over two years and it has worked till date) . I call it the US paypal code. It is totally different from what you already know. In fact, there is no paper work to fill whatsoever. You do not even have to fill forms and send through post. You'll be able to open and verify your own paypal account within 7 working days and you get a visa card that enables you to withdraw money from any ATM machine here in Nigeria.

This is the step required to open your paypal account:

1. You visit www.xxxxxxx.com (name withheld – get access through the blueprint below)
2. Fill in your name, Nigerian address, telephone number, ID number
3. Pay for a visa card & checkbook using a visa card. Cost is \$29.99(you can get this from graphcard)
4. Procure your bank account number straightaway online immediately your payment go through
5. Go to your iP changer, login to www.paypal.com and sign up for a new a/c
6. Verify your paypal account with your bank account information
7. Expect your card & checkbook in the post within 7 days

Simple as A-B-C.

Remember, your new paypal account can be used for various businesses you do online. This ranges from paid surveys, affiliate marketing, internet marketing, buying & selling online, forex, cpa marketing etc and every other thing you can think of.

I think every individual should be responsible for opening their own paypal account. I really won't allow anyone to use the Unified paypal account again. Also, don't ask me to open a paypal account for you. I am quite too busy to

monitor and open accounts for individuals, however, our support desk will be useful in giving guidance if you ever get stuck whatsoever. Simply dial our numbers on 08039259477 or send a direct mail to info@reliablepaysurvey.com

Conclusion

Throughout this free report, I have detailed how possible it is to start your own paid surveys business. Like I said, there are over 60 companies that will pay you between \$5-\$60 dollars for completing 15 minutes surveys with them. In this report I have detailed just one of them which is www.ciao-surveys.co.uk. I also stated how to sign up as if you are in the US. I spoke about using www.hidemypip.com to change your IP to US. The good thing about hidemypip is that it's really easy to setup and require fewer configurations unlike freedom software. This is particularly useful if you are browsing from a cybercafé. Last but not the list I stated how possible it is to open your own paypal account without filling any paperwork whatsoever. While I did not disclose the name of the bank, it is a major bank in the US and they are very genuine.

Earn More Per Day...With Over 60 survey sites

I am very sure that you don't want to earn peanuts. I am equally convinced that you are not interested in earning just \$3 per day. www.ciao-surveys.co.uk is just one of the sites that will pay you to sign up with them. To be honest with you, just this one site will not be enough to create a paid survey business that cranks in massive cash in essence of \$450 daily. I know it sound odd, but at a particular point, I have earned this much using my secret strategy.

What does \$450 sounds to you? How would you like to be the next paid survey millionaire? How would you like to be called the next Paid survey king or better

still create your own paid survey business totally online? I am sure you would love this, especially if you are the type of person that finds affiliate marketing exceedingly boring and a total waste of money to advertise using Google adwords. So what's the next step, what do you need to create your own paid survey business to give a massive profit of up to \$450....

Introducing Reliable Paid Survey Blueprint:

Yes I call it the blue print. I have stated at various sections of this report that there is a paid survey blueprint and here is where I'll talk about it now. I am looking for just 100 Nigerians who are really serious about making money online without selling. One of the things I am going to show those 100 Nigerians is how to earn over \$28,000 doing paid surveys in the year 2009.

Don't doubt that much, this is very very possible and while I am not a person who brags about my internet prowess, following the blueprints can achieve even much more.

In short, in the blueprint, I'll show **100 Nigerians** how to:

- a. 60 paid survey companies that allows you to sign up with them without any membership fees whatsoever (Worth over \$98 if bought on clickbank)
- b. How to hide your IP address right from Nigeria (Worth over \$234 yearly)
- c. How to build a virtual paid survey estate that rakes in over \$28,000 yearly (worth \$29)
- d. How to collect your payment through paypal (worth \$23)
- e. How to get your own verified paypal & US bank account online without filling any form to be submitted through post (Worth over \$90 if you purchase from clickbank).
- f. How to withdraw your cash here in Nigeria

I am going to go further. Like I said, I have been extremely blessed and successful online and I am willing to share my resources that have contributed to me earning thousands of dollars in international business & millions of Naira doing business online in Nigeria. I am literarily going to give you never to be

shared before, top of the range profit pulling ebooks & softwares which includes:

- Maximum Profits (a manual that has helped me pull in over 1.5 Million in profits within 3 months after I practically used one of the advertising techniques).
- Google Adsense Blueprints (Last year alone, I created over 300 blogs for individuals and I have a successrate of 75%. This simply means that over 250 people that I created a blog for through the www.Taiwo50webs.blogspot.com made profit with their personal blogs. This particular Adsense blueprint was responsible for it.
- Squiddo Marketing a programme worth over \$80
- SEO Article Copyrighting: This ebook helped me when I started working from home. In the long run, I was able to start creating sales letter for nothing less than \$100 per sales letter written on www.elance.com. You can visit www.howtoopenausabankaccount.com for more information on the Work From Home Programme.
