Thank you for downloading this report. The purpose of this report is to show you two things, and that is how to change your IP to a foreign one without installing any IP changer software and exactly how to make money changing IP for individuals and opening paypal accounts for them. Before I go on, I'll do a quick introduction of who I am.

My name is Abayomi-Taiwo, and I love internet business. I made my first \$200 online through Google Adwords in Year 2004 and I have since then gone up to build commercial success online, raking in thousands of dollars from Google Adsense , Ebay and building cash producing websites online. Presently, I run Internet Wealth Consult, an E-Business Consulting firm that delivers cutting edge internet business solutions to help you get started with making money online. Overtime, I have built an internet business empire that includes:

www.reliablepaysurvey.com : The major website that shows you exactly how to make money from paid surveys and open your own verified paypal account

www.howtoopenausabankaccount.com : My blog, where I dish out free information on how to start internet enabled business and other various

opportunities.

All that being said, the aim of this report is to specifically show you exactly how to change your IP to a foreign IP so that you can do any of the following:

1. Access paypal website (without a foreign IP you can't do this or else you get banned!!!)
2. Open Paypal account for individuals and charge them for it. If you charge N5,000 opening paypal and you get 1000 subscribers in one year, that is a total of N5,000,000 (**yes, that's five million Naira in one year!!!**)
3. Do Paid Surveys without having to install hidemyip, hotspotshield, freedom or the likes
4. Visit bank websites that do not allow Nigerians
5. Access Clickbank.com

Prior to this time, there has been major methods of changing IP ranging from using HideMyIp, Hotspotshield as well as the freedom software. However, over time, the subscription expires, or sometimes refuses to work due to the software clogging the computer system or simply a difficulty in installing the system.

With this in mind, I decided to proffer a solution that is simpler, easier and more accessible for you. Even a dunce will be able to do change their IP using the method I highlighted below and as long as you follow the method, you would not have any problem whatsoever.

Step 1:

The first step is for you to download firefox to your computer, if you do not already have one. You can simply do this by going to <http://www.mozilla-europe.org/en/firefox/> to download your own copy. This download is about 7.6 Mb and could take a while to complete the download. If you sometimes have a break in your internet connection, then I suggest you use a download manager like www.speedbit.com

After downloading of the Mozilla fireffox, simply install it on your computer.

Step 2:

Since what we want to do is change our IP to a foreign IP, we need to look for a suitable IP that depicts the country we want to change to. To do this, simply go to <http://www.xroxy.com/proxy-type-Socks5.htm> and look for an IP that suits the country that you want to change your IP to.

IP address	Port	Type ?	SSL ?	Country	Latency (msec) ?	Reliability (%) ? ▾	Details	Whois

65.13.207.221	1080	Socks5	true	United States	30	92.76	Details	Whois

67.21.82.247	1080	Socks5	true	United States	30	46.14	Details	Whois

Step 3.

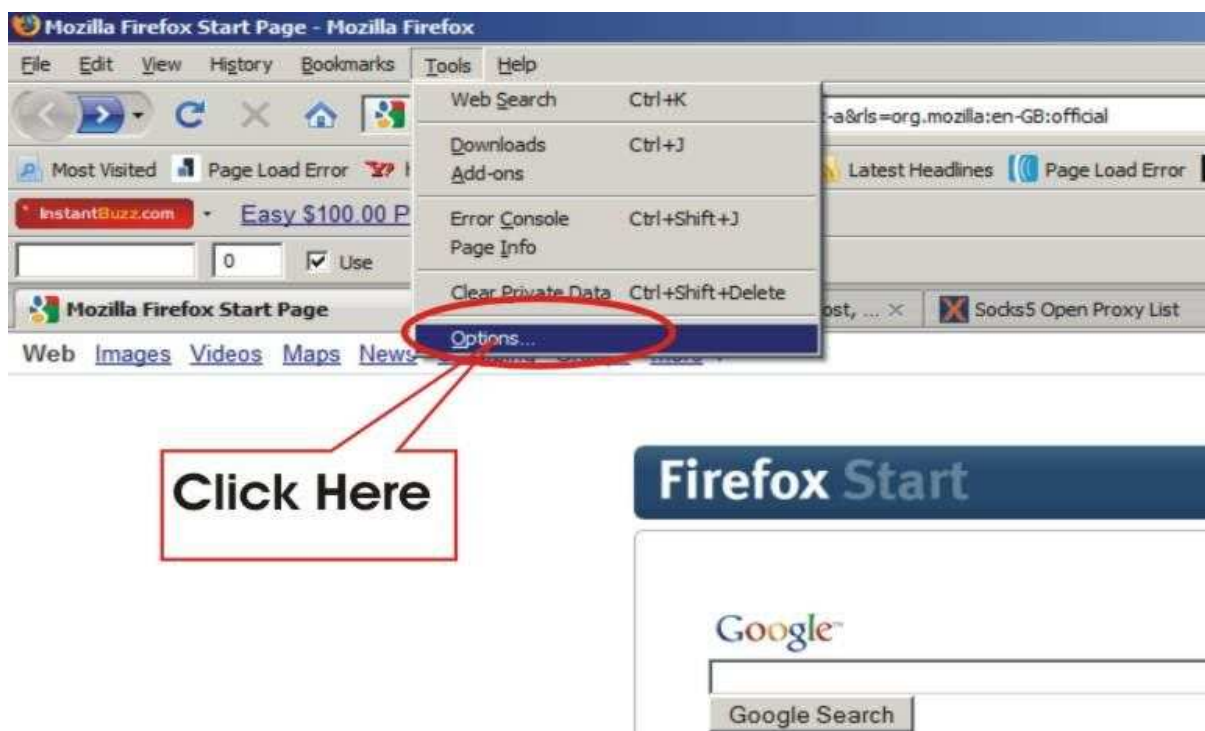

Pick one of the IP address on there, alongside with its port number. In the case of the picture highlighted above, the IP Number is

65.13.207.221 and the port number is **1080**
(kindly note that these two are very important.)

Step 4:

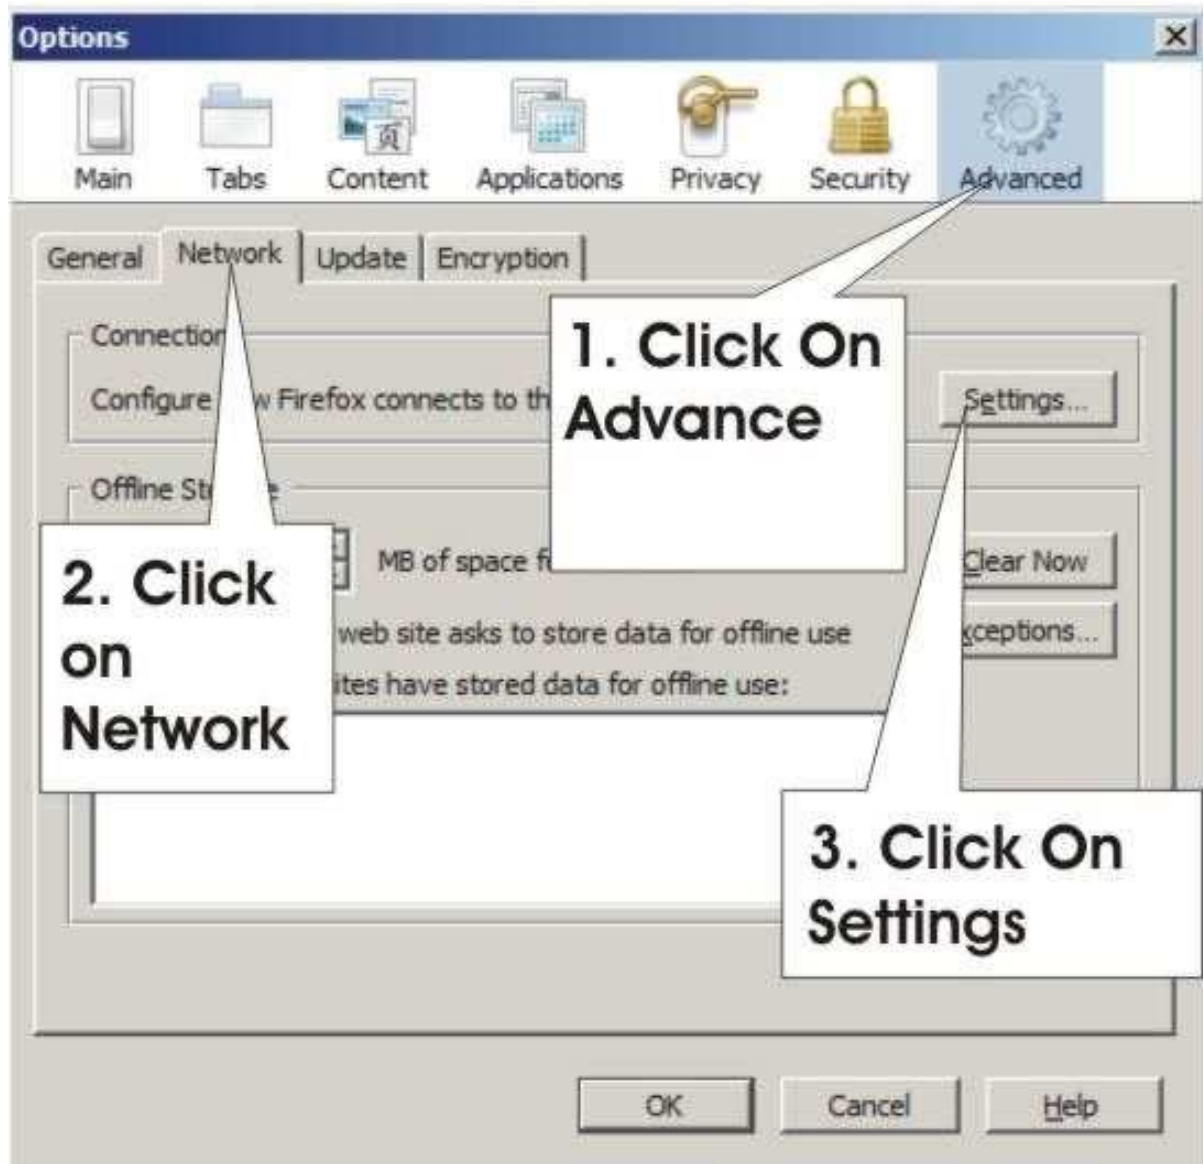

Open your newly installed Firefox. If you have not done this, repeat step 1 above. After you've opened your Mozilla Firefox, then do the following (**Follow Graphic illustration below**)

Click on Tools > and choose Options

Step 5

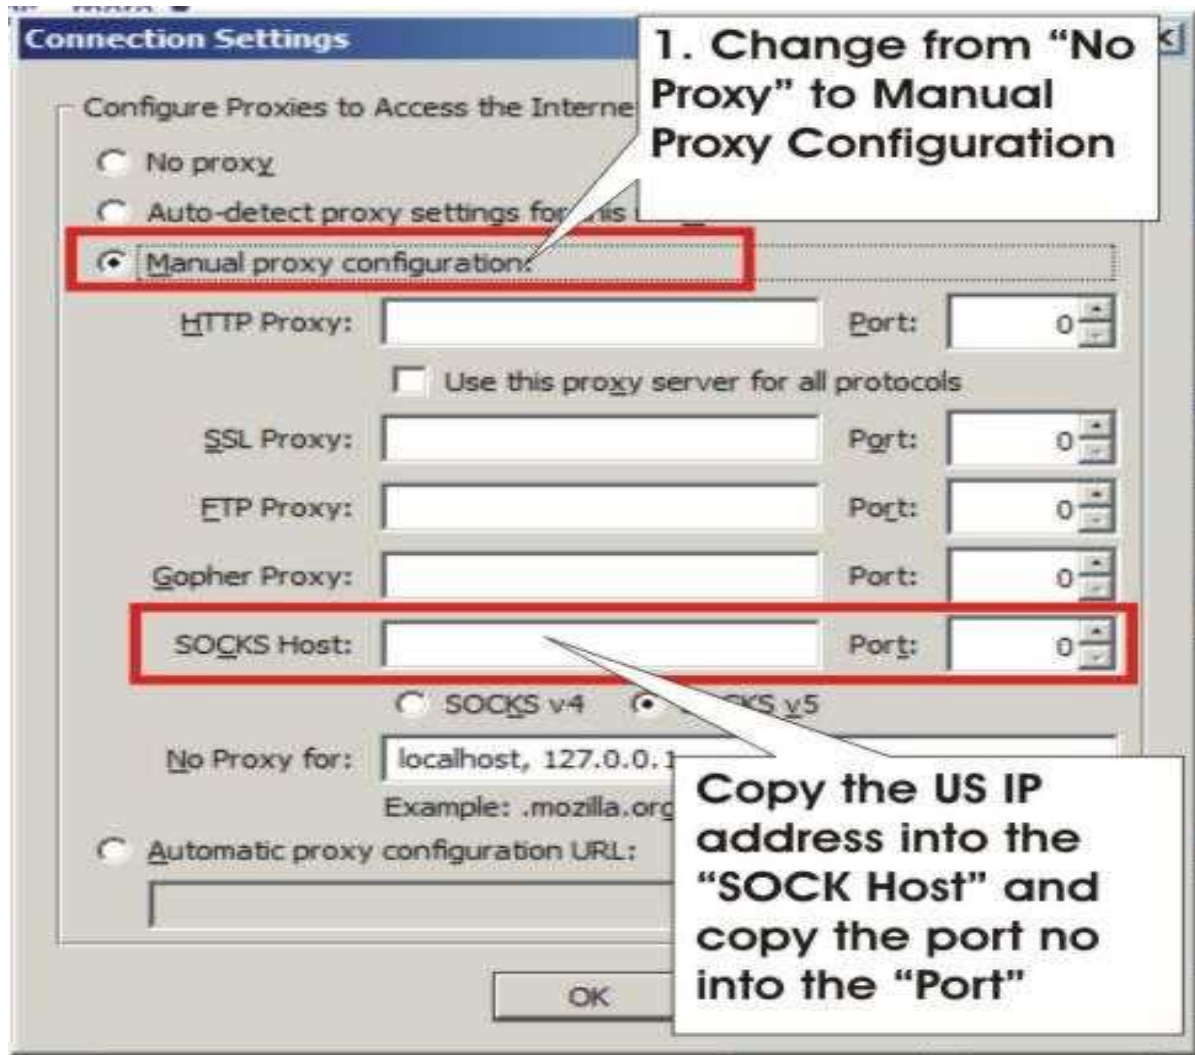

A popup will arrive, simply click on **Advance > Network > settings**

STEP 6

Another Pop up will come up. You need to change from **“No Proxy” to Manual Proxy Configuration** and then paste the IP address (in the case of this example, it was the US IP address

quoted earlier + Port Number) into the Sockshost & Port and then click OK as shown below;

Finally, go to www.dnsstuff.com or www.whoer.net to confirm that you are now on a US IP. Those websites will tell you your locations and the new IP address (which is the one you entered into the sockhost)

You can also change to a Chinese, Canadian, Thailand, UK, Netherland IP, all you need to do is go back to <http://www.xroxy.com/proxy-type-Socks5.htm> to look for the suitable IP for the country of your choice.

I wish you good luck

N119,000 in 2.5 Weeks

That's another N119,000 in two and half weeks, and I don't even go out of my room!!!

NOW...ENOUGH IS ENOUGH...I know you are not interested in seeing how fat my account is, neither do lions need roar, however, I am showing you this to let you know that I am just not a TALK TALK Person. I Get Results and that is What I Do On a daily basis and also to let you know the potential in what I am about to tell you. Trust me, this are not crank up figures, they are exactly what I make day in day out from the comfort of my room. With just my PC and Internet Connection.

This is exactly what I do for a living, and I am willing to share this with you. Imagine if you could have this kind of figures in your bank account on a daily, weekly basis. This is very possible, and is completely legal. This is called Information Marketing!

I know you've heard this, from the pages of the newspaper, to internet forums to seminars, however, I am about to show you a dimension that most marketers rarely know. Trust me on this...Let me share a some few case studies with you;

Case Study 1

Very recently as well this year, I found out a method of making money with paid surveys. While the concept of paid survey itself is not new (I did my first paid survey in 2005) , many individuals have been scammed into making payment for membership fees that takes them no where.

However, I did a lot of surveys from websites that do not require me to pay any dime, and decided to write a book that shows other individuals how to make money from paid surveys, just like I did.

There and then, I created

www.reliablepaysurvey.com and had over 200 subscribers!!!. Not only that, I also showed them how to open their own VERIFIED Paypal account without any stress within 24hours. No forms to fill, No waiting...You even get your Us bank account details same day you sign up for it.

In fact, many of them called me to thank me for the problem of paypal that I solved and even sent me testimonies via email.

If you check the case studies I quoted above, you'd discover something spectacular about it all, that is the **WIN – WIN** attitude that my models and programs placed. I simply:

1. Find a need

2. Create a solution for the need
3. I am happy, The Customer is Happy,
Everyone is Happy!!!

My Methods makes money for me, makes money for the individuals who purchased it, I am happy, My customers are happy, everyone is happy. This is what I call Good Business Ethics!!!

Apart from making money with these programs online, I also rake in cash showing other people how to do it. This is what I simply called Fully Automated Biz System.

This system is exactly what I want to share with you, I am positive that if you follow the process, you'll definitely profit from it.

THE FULLY AUTOMATED BIZ SYSTEM

Over the past one year, I have had over 100 requests by individuals, asking me to open their paypal account for them. However, due to my busy schedule (Yes, I am a very very busy individual), I always turn down such offers.

Very recently, a friend of mine who came to visit me challenged me to show him how to open paypal accounts. And so he ordered a copy of my Ebook (US PAYPAL CODE) to open an account himself. This friend of mine, simply went home and digests the eBook and within 24hours opened his own Paypal account.

Two days later, he visited me at home and asked

me for just one more favour. He simply told me to direct individuals who want to open their paypal account to him, since I do not have time to open accounts for them, due to my busy schedule. And so I struck a deal with him, I directed over 7 individuals to my friend, and he opened their paypal account completely VERIFIED and charged them N7,000 just for opening each account!!!

Within 2 months, he has opened account for over 25 individuals and made a profit of N175,000. That is more than some bankers earn in some old generation banks working Mondays-Fridays. My friend has since built a business around it and continued to open more paypal accounts and rake in an average of N50,000 - 60,000 monthly without even advertising. As a matter of fact, he was the one that finally cracked the code of the NEW IP changing method that I detailed in this Ebook for you.

INTRODUCING THE FULLY AUTOBIZ WEALTH SYSTEM

Since this system has worked for my friend, I have decided to share it with you. Infact, I am going to go beyond what I have done for my friend and offer you much more and more...Think of this;

Many Nigerians are in serious need of Paypal account, and they don't know how to go about it.

Infact, many of them are willing to pay as much as 10,000 to get someone to open their Paypal account for them, and if you can fill this gap, then you'll be making a killing. Remember my 3 case scenario that I listed above??? I simply found a need, and provided for such need and made money over and over again.

You do not need to find a need, neither do you need to write a book or create a website, all these will be done for you.

What You Need TO Do...

1. You'll need to open a verified paypal account & send me a confirmation that your account has been verified. This is to ensure that you understand this method and how it works. I'll also give support to you in opening your own paypal account if needs be. However, this method is dead simple.
2. Have your own website that clients can visit to access information about your paypal services (Don't worry about this...read one...)

HOW DO I MAKE MONEY WITH THIS...

1. You can decide to start opening paypal account. You get to set your own price, but between N5,000 & N6,500 is good enough for charges.

If you open account for **1000 individuals,**
then you would have made a whooping
N5,000,000 opening paypal accounts.

This figure is very common, I am a living witness to this.

2. You can start selling the manual to individuals at any price you want, however, if

you sell at N3,000 only and you have 100 customers, that's a cool **N300,000** for you, just selling a manual that you did not even write yourself.....This is really the Fully AUtoBiZ Wealth SyStem

3. You can fund individuals account. There is a company that you can be their reseller, this company specifically allow you to fund people's account for them, and you make money for funding this account. If you make a profit of N20 for every dollar funded and you fund as much as \$1000 monthly, then you've just made an additional N20,000 in a month. You should note that these individuals will keep coming back to you to fund again and again and you too continue to make money again and again....This is endless stream of income for you and you can never go wrong.
